B) To Perry: 1) Did he encounter Burkley at Parkland and tell Burkley about the throat wound?

2) Can he pin down just when he had his telephone contacts with Bethesda? Did he speak with anyone besides Humes?

3) When CBS tried to interview him in 1967, did they show him the manuscript? Did they or anyone else pressure or threaten him in any way, shape or form to embarrass him by making it public unless he cooperated with CBS? Did anyone in an official capacity ever threaten him with a perjury charge if he didn't go along with CBS? Was there any agreement made between him & CBS not to make the manuscript public?

c) To Carrico: Did he administer Sodium Cortef on his own initiative, or was it Burkley who supplied it? Did anyone ever suggest to him that he judge his testimony on this point?

Lets talk by phone in the near future. Best regards,

Roger
